3. Details of the Application:

Application No: EL008559.

Locality of the land to which the application relates: 15km northwest of Coleraine, 6km southwest of Coojar

Area of application: 84 graticular sections/84 km²

Date of Application: 8 November 2024.

Term the licence is applied for: 5 years.

Outline of the proposed program of work: The Company intends to explore for critical minerals the core focus however is the potential for REE bearing phosphates. For the first year, the Company propose to finalise compilation of datasets both on a prospect scale and statewide datasets. Further reconnaissance activities will include geological mapping, 3D geological modelling supported by discrete rock chip sampling. Pending the outcomes from this initial work, more detailed field work may be undertaken including shallow drilling.

It is anticipated by Year 3, the Company is able to have identified areas of strategic and economic importance and will be seeking to undertake further drill programs to assist in resource definition.

Significant effort will be directed towards community engagement and development of a social partnership in the local community and with Traditional Owners and ensuring the local government is well informed of activities.
